5 COMMON TYPES OF PHISHING

EMAIL PHISHING
Scammers create emails that impersonate legitimate companies and attempt to steal your information.

SPEAR PHISHING
Similar to email phishing, but the messages are more personalized. For example, they may appear to come from your boss.

CLONE PHISHING
Scammers replicate an email you have received, but include a dangerous attachment or link.
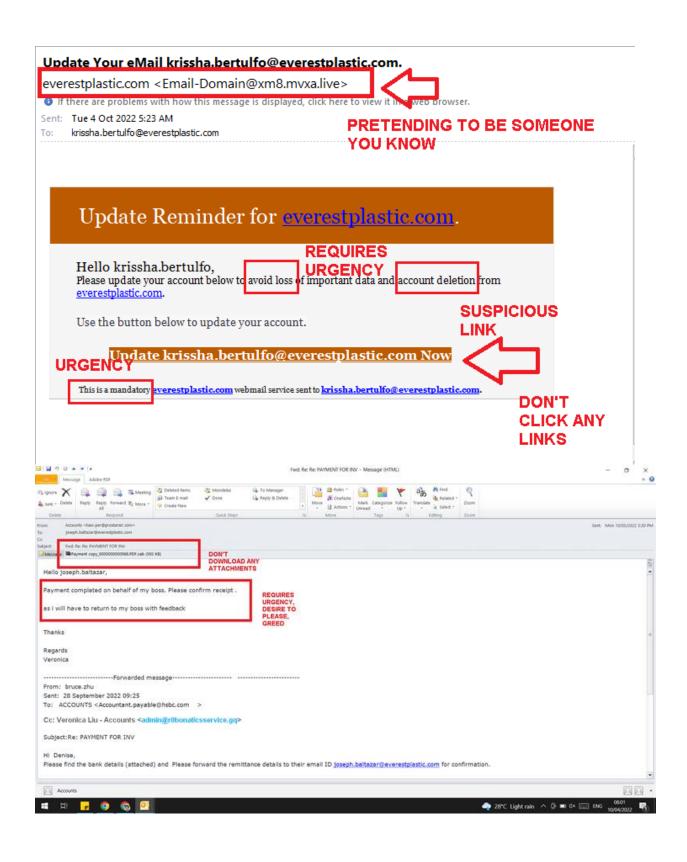

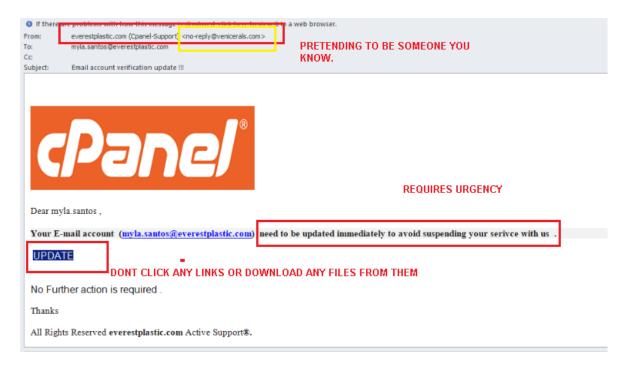

WHALING
Scammers target high-ranking executives to gain access to sensitive data or money.

POP-UP PHISHING
Fraudulent pop-ups trick users into installing malware.
